

BUG ID: BUG\_002

Title: User can submit checkout without required shipping address

Module: Checkout

Severity: High

Priority: High

Environment: Windows 11 Google Chrome (Latest Version)

Preconditions: User has at least one product in the shopping cart.

Steps to Reproduce: 1. Navigate to the shopping cart. 2. Verify a product exists in the cart. 3. Click Checkout. 4. Enter valid payment information. 5. Leave the shipping address field blank. 6. Click Submit Order. 7. Observe the system response.

Expected Result: The order should not be processed. A validation message should appear indicating that a shipping address is required before checkout can continue.

Actual Result: The order is processed successfully even though the shipping address field is blank.

Frequency: 100% Reproducible

Status: Open
